(AFTERCARE)

AFTERCARE

Your tattoo finishes healing at home, and here are the steps to look after it well. Every skin is different, so if anything worries you or feels off, write to me anytime: I would much rather you ask.

01 FIRST STEPS

- Keep the **pad** on for **2 to 3 hours**.
- Wash with **warm water and mild soap**.
- **Pat dry** with paper towel.
- On the first night, sleep with the **second pad** I give you. Take it off the next day and wash the tattoo.

02 DAYS 1 AND 2

- Don't apply any **cream**.
- Don't cover the **tattoo**.

03 DAYS 3 TO 14

- Wash **3 times a day**.
- Apply a **thin layer** of **tattoo cream**.

04 AVOID

- **Sun** exposure.
- Swimming pools and the **ocean**.
- The **gym** for the first **4 to 5 days**.
- **Picking** or **scratching**.

If you have any doubts or questions, please write to me.
