(BEFORE YOUR TATTOO)

BEFORE YOUR SESSION

A few simple steps so the session goes beautifully and your skin is ready. They are easy, and they make a real difference.

01 THE DAYS BEFORE

- **Moisturise the area** every day for the week before your session.
- **No alcohol or drugs** before you come in.

02 ON THE DAY

- Wear **comfortable clothes** that leave the area easy to reach: you will be on the table for a good while.
- **No numbing cream** unless you have asked me first.

For your safety, if you arrive under the influence of alcohol or drugs, or wearing numbing cream we have not talked about, **I won't be able to tattoo you**. If you are unsure about anything, just ask me beforehand and we will talk it through.

Interested in numbing cream? Feel free to ask me and we will see what works for your piece.

If you have any doubts or questions, please write to me.
